

how to measure baby's feet in 3 easy steps

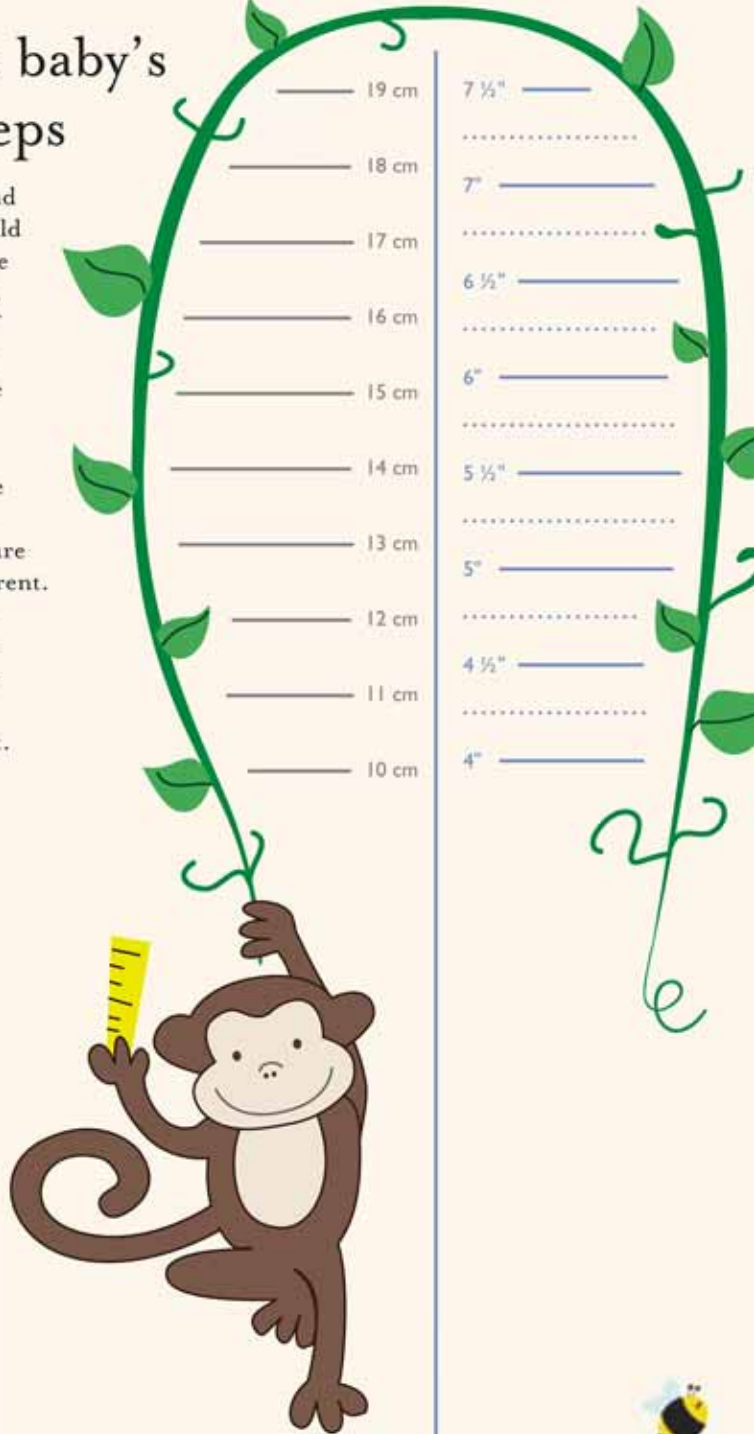

STEP 1. Have a straight edge and pencil handy. Stand your child with one heel lining up to the dotted bee trail (lower page). Gently press down the top of baby's foot and toes to make sure they are flat and toes are not curled.

STEP 2. Hold your straight edge where your child's foot ends. Draw a line. Be sure to measure both feet as they may be different. Choose the longest foot for a proper measure. Add 0.5 cm – 1 cm (or 1/4" – 1/2") extra for comfort and growth. Make a note of the new measurement.

STEP 3. Refer to the Robeez Sizing Chart below. Select the next size larger than your new measurement.

ROBEEZ Shoe Size	Shoe Length (centimetres)	Shoe Length (inches)
0-6 mos	11.75 cm	4 3/8"
6-12 mos	13 cm	5 1/8"
12-18 mos	14.5 cm	5 7/8"
18-24 mos	15.75 cm	6 1/8"
2-3 yrs	17 cm	6 3/4"
3-4 yrs	18.25 cm	7 1/8"
