

Folding Instructions for Hens

1

This folding technique will work on all of our Turkey decoy

1. Start out by holding the decoy vertically out away from your body.
2. Grab the decoy, one thumb pointing up, and the other thumb pointing down as shown.
3. Twist one hand forward and the other hand backward.
4. While twisting, push inward like an accordion, continue to Twist then fold the decoy flat.
5. The band in the decoy will form three rings, Use a rubber band to hold the decoy closed.
6. The Hen turkey head and tail will both fold back onto itself forming a more compact circle.
7. Congratulations! You folded the decoy.

2

Enclosed is one leg pole, insert into a sleeve sewn inside the decoy. The sleeve opening is located in the bottom of the decoy. Slide pole up into the sleeve and hook the elastic strip on to the ground stake peg. Step the pole stake into the ground and you're set up.
